PROJECTS

AI-Powered Virtual Assistant

- Developed an intelligent virtual assistant (Alexa) leveraging Natural Language Processing (NLP) and machine learning to handle user queries and automate tasks. Integrated speech recognition and text-to-speech (TTS) for seamless interaction. Integrated YouTube playback via API to stream requested songs and also provides real-time information.

Personal Portfolio Website

- Developed a personal portfolio website to showcase my skills and projects.
- Used HTML, CSS, JavaScript to create a responsive and clean design. Integrated sections for projects, skills, and contact information.
